

IMPORTANT INFORMATION DUE TO COVID-19

Due to the increasing spread of the coronavirus, PS Business Parks has taken various precautionary measures to protect the health of its customers, employees and vendors and to support the measures ordered by public authorities.

This includes measures to support social distancing. Many of our employees are working from home. We ask for your understanding during this time if our response time in getting back to you is delayed.

Leasing, Property Management and our usual services are being ensured thanks to the following measures:

- Maintenance personnel are still on property. When meeting with them, please observe the social distancing and other guidelines set forth by the CDC for your own protection.
- Leasing and Property Management teams are available during normal business hours and please utilize telephones, texting and email whenever possible.
- Common areas such as conference rooms and fitness centers are closed temporarily.
- All customer and broker events are cancelled until further notice.

We at PS Business Parks are committed to working with you during this difficult period. Please do not hesitate to reach out to us via email, text or phone calls.

Thank you for your understanding and stay well.

Yours sincerely,

Everyone at PS Business Parks
